

# IMMUTECH

AQU007

*Improves Stress Resistance in shrimp and fish*

## PROPERTIES

No matter how skilled a farmer is, the fish and shrimp reared on his farm are often subjected to stressful conditions. These conditions - poor soil conditions, pollution, oxygen depletion, high or low temperatures, salinity shock, sorting and transfer, pathogen outbreaks- may directly result in death or secondary infection by pathogens.

- **IMMUTECH** helps prevent stress.
- **IMMUTECH** supports animals in recovering from stress.
- **IMMUTECH** reduces mortality risks.

## COMPOSITION

- |   |  |   |
|---|--|---|
| $\beta$ glucane<br>Manno-Oligosaccharides (MOS) |    | <ul style="list-style-type: none"><li>▪ Immunostimulation: Activation of phagocyte cells</li><li>▪ Stimulate natural defence</li><li>▪ Enhanced resistance to infections.</li></ul> |
| Vitamin E<br>Vitamin C                          |  | <ul style="list-style-type: none"><li>▪ Stimulates immune responses.</li><li>▪ Increases stress resistance.</li><li>▪ Vitamins used are thermo-stable.</li></ul>                    |
| Selenium  |  | <ul style="list-style-type: none"><li>▪ Has antioxidant properties by limiting the effects of free radicals.</li><li>▪ It stimulates the enzymatic activity.</li></ul>              |
| Prebiotic                                       |  | <ul style="list-style-type: none"><li>▪ Positively influence intestinal flora.</li></ul>  |

*IMMUTECH* does not contain antibiotics and is environment-friendly

## DIRECTION FOR USE

- Recommended incorporation rate: **3-7kg IMMUTECH per ton of meal mixture before pelleting**
- For coating in farm, mix **IMMUTECH** with 50 or 100 ml of clean water, mix with the feed or meal, wait until absorption and then coat with a good quality fish oil. Use this preparation immediately.
- We recommend that you use **IMMUTECH** for one week on a daily basis before periods of anticipated periods of acute stress.
- **IMMUTECH** is presented in powder form.
- **Store in a dry and cool place.**
